- Optional accessories: Car cradle, Carry case, Cigarette lighter adapter, Deluxe FM headset, Deluxe headset, Necklace, Stereo FM handsfree headset, TV Link, Universal car kit, USB data cable + PC software

Green Specifications
- Lead-free soldered product

Power
- Talk time: up to 6 hrs
- Standby time: up to 400 hrs
- Charging time: less than 2.5 hours hr
- Battery capacity: 750 mAh
- Battery Type: Li-ion
- Battery saving manager: Auto switch on/off

Product highlights

Integrated VGA digital camera
The integrated digital camera with VGA resolution (640x480 pixels) allows you to take high-quality pictures anytime, anywhere with your phone, then send them via MMS or email, or store the pictures in your phone's memory.

Super bright torch light
'Super-bright flash is a light generated by LED to take pictures in low light conditions, such as night. Manually activate and deactivate the super-bright flash by pressing and releasing the "+" or "-" volume side key (super-bright flash is automatically de-activated once the photo has been taken).

Continuous zoom
Continuous digital zoom lets you easily and smoothly zoom the picture in and out from the original, composing better and more meaningful pictures by capturing the right detail at the right distance from the overall scene.

Multi-shot
Multi-shot for continuous pictures allows you to use a single click to take a sequence of photos to capture movement. Select continuous shooting: time and interval.

MMS messaging
MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

Infrared
Infrared is the simplest wireless technology for information exchange at close range, allowing easy sharing of images, backgrounds, songs, and phonebook contacts with friends and family and enabling wireless access to the internet through your PC.

TV SlideShow
TV SlideShow allows you to display pictures from your phone's photo album directly on a TV screen for the fun of sharing pictures from your phone's camera with friends and family. Simply connect your mobile phone and TV with the TV Link accessory to run an automatic or manual slideshow.

Java 2.0
Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.

Embedded games
Embedded games use the bright color screen and keypad to turn your mobile phone into a game station. Simply go to the dedicated sub-menu to start playing your favorite game.

WAP
Wireless Application Protocol (WAP) version 1.2.1 is a standardized way for a mobile phone to talk to a server in the mobile phone network to connect your phone to WAP-enabled web sites, allowing you to access comprehensive information whenever you need it.

E-mail
Electronic mail is another way to stay connected to your contacts with your mobile phone by sending and downloading e-mails as easily as if you were in front of your PC.
